Dear Parent/Caregivers

Re: Safety measures in Level 2 from Canterbury Water polo as follows:

Kia Ora whanau of Kirkwood's Water polo team.

While we are back in alert level 2 right now Canterbury Water polo is going ahead with games for the moment and have asked us all to adhere to few health and safety measures during this time to keep everyone safe.

These measures are:

- No parents pool side. Each team is allowed 1 coach and 1 teacher or parent pool side to support the team (two adults only) this is to keep us under 100 people.*
- Please encourage players to only arrive 10mins before their game start time and leave straight after their game (ideally not playing in the rec pool)*
- Please encourage players to arrive with their togs on already and only use the changing rooms briefly after the games to quickly get changed.*
- Parents are to pick up their children up from the drop off zone and not to wait in reception. If possible, could the teacher / parent in charge wait until all children are picked up before leaving as it could be a little unsettling for some children without their parents poolside.*

Fingers crossed that everything will head back to level 1 ASAP, but we appreciate your support during this time.

Canterbury Water polo

If you have any questions, please contact the school.

Regards

Steven Moseley
Teacher in Charge
